

**Potter Valley High School**  
**School Accountability Report Card**  
**Reported Using Data from the 2013-14 School Year**  
**Published During 2014-15**

Every school in California is required by state law to publish a School Accountability Report Card (SARC), by February 1 of each year. The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- View this SARC online at the school and/or LEA Web sites.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents and community members should contact the school principal or the district office.

## School Description and Mission Statement (Most Recent Year)

Potter Valley Community Unified School District was born out of a community commitment to local education. Once a part of Ukiah Unified Schools, community members came together in the late 1970's to fight for the right to form our own school district under local control. This dream became a reality in 1977-1978 when Potter Valley officially de-unified from Ukiah and formed Potter Valley Community Unified School District.

After over 37 years of operation, Potter Valley continues to proudly provide a high quality, local education for students, preschool through 12th grade.

We pride ourselves in providing a uniquely relational approach to education in contrast to the big-box schools that struggle to keep students from becoming a face in the crowd. As state and federal mandates and increased governmental intrusion place greater emphasis on data driven decision making and increased focus on student performance measured by high-stakes testing, the students, parents, and staff at Potter Valley Elementary School have committed themselves to making the necessary adjustments to meet these demands, but also to remain true to our roots and keep the best interest of students at the center of everything we do. Our motto, "Potter Valley Schools, a family rather than a factory approach to education," expresses this focus, and inspires all stakeholders to work hard to maintain a school where "Community" is more than just a word in our district name; it is a description of how we approach education.

#### School Facility Conditions and Planned Improvements (Most Recent Year)

The Elementary School was constructed in the 1950's and the Junior/Senior High School was built in 1981. The gymnasium, built in the 1950's is used by the Elementary, Junior High and Senior High schools. The stage was re-purposed in 2009 and transformed into a weight training facility that can be monitored while other activities are supervised in the gym.

School buildings and grounds are generally in good repair and students and staff work together to keep them clean and maintained. Students in our landscaping class do upkeep of lawns and flower beds and also construct various landscape projects annually.

Recent facilities improvements included re-roofing several buildings in the district, resurfacing the gym floor, removing trees that were causing damage to structures or sidewalks, and installing a back-up water storage system.

Routine site inspections are performed monthly by maintenance staff. The latest report showed no safety issues and several items in need of repair. Safety inspections are performed at least annually by the district's insurance company with the guidance and cooperation of our maintenance staff.

In the 2012-13 School Year the District has contracted Alameida Architecture to prepare a Facility Assessment and Master Plan. A copy of this plan can be requested by contacting Mary Thornton in the District Office at 707-743-2101.
